To whom it may concern:

The time has come to move forward and settle this matter. If we were to take a serious look, as to when our economy began to falter, it would probably fall very close to the time when the government initiated these actions against Microsoft. And, because of it the entire technology field has suffered.

Please settle this case once and for all. Everyone likes to criticize and attack winners, and the majority of them are followers not leaders (as is Microsoft).

I stand with Microsoft and its Chairman Bill Gates and urge the government to put and end to this unjustified act.

Respectfully,  
William R. Cwynar
